

On the next page you'll find our Letter-Sized Poster for advertising our "Song of The Prophet" CD.

When Page 2 is printed with Adobe Reader at 100% scale, the built-in margins are sufficiently wide so that, on most desktop printers, the image will not be cut off. If your printer is capable of printing closer to the paper's edge, feel free to increase the scale up to 105%. (Note: Please uncheck the Adobe Reader dialog box which instructs your printer to "Shrink over-size pages to fit paper"!)

Don't forget to add your sales price and/or other information below the words "Now On Sale!"

If you have any questions, or would like us to send commercially-printed posters to help you market our CD, please send us a note at:
